Affiliate Marketing Solution

Our Affiliate Marketing Solution delivers powerful, easy to use Affiliate marketing suites. The architecture empowers any business to experience unmatched benefits for internet exposure, including the selling of products and/or services. (The rest is good except the last paragraph of Social cart which needs to read): Its all free. Nothing is as easy to use for instant access to selling and marketing of products for even the simplest of home based businesses.

Payment Gateway Solution

Eware Technology is a premium provider of payment processing services. We provide technology and services that businesses require to accept credit and debit card payments over the Internet.

We enable these businesses to process transactions securely, quickly, and with peace of mind.

Communtiy Rewards Program

The Community Rewards Program, is exclusively designed to create ongoing revenue for local schools and education foundations with an unmatched results of funding and ease of use.

This is achieved through highly motivated participation from two sources directly within the community, which are individuals, and local merchants.

Affiliate Program

Link2Rewards was specifically created for affiliates. Dedicated to the Affiliate Community Link2Rewards is focused on your success. Our primary goal is to market products with high consumer demand, high margin and new market research.

We specialize in high commission products with superior reporting capabilities. Our staff offers quality and reliable services, tools you can count on and availability to answer any questions at any time.

Social Networks Platform

If you have your own cool products you can upload them, create a store and sell them on your site, and we will give you widgets to give to your friends - so they will be making you money.

Its all free. Nothing is as easy to use for instant access to selling and marketing of products for even the simplest of home based businesses..

This is just a short list of examples, contact us to learn more about solutions we may have done in your industry.

Methodology

Process Framework Principles

- Partner with Customers
- Work Toward a Shared Vision
- Deliver Incremental Value
- Invest in Quality
- Empower Team Members
- Establish Clear Accountability
- Learn from all experiences
- Foster open communications
- Stay agile, adapt to change

Communication

Eware devises a comprehensive communication strategy to reduce project ambiguities and facilitate free flow of information. This ensures that all the stake holders are kept adequately informed, thus leading to the project success. Communication Plan consists of Communication Medium, Communication Cycle, Schedule and Scope of Meetings. All communication is tracked through centralized online project portals.

Project Management

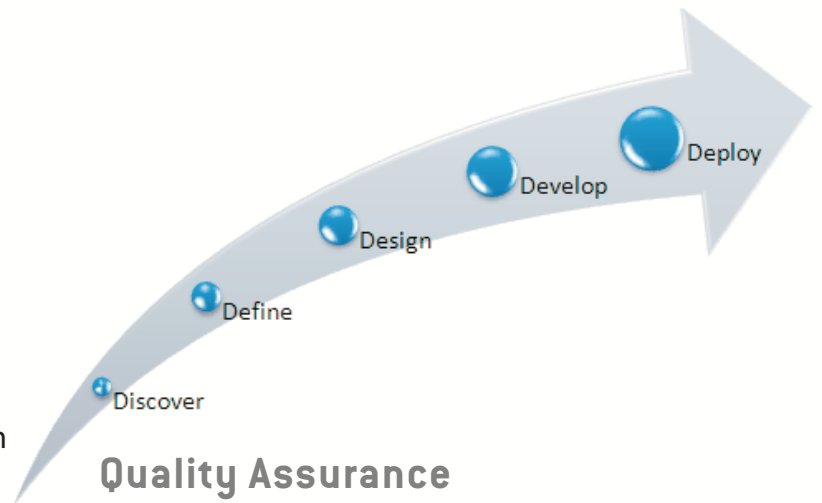

Eware project management practices ensure that the right solution is deployed using the right resources at the right time. Our project management approach is focused on producing solutions that meet your business objectives. Client communication and feedback forms the fundamental pillar of our project management. This reduces ambiguities and misunderstandings by making the process and the project status transparent to the client.

Quality Assurance

At Eware, our objective is to achieve and maintain a high standard of quality throughout our application development and support process. This helps us to satisfy the customer expectations in respect of all the services and solutions we offer. Eware is committed to effective Quality Management at every level of our operations by making use of the latest in the Quality Assurance and Testing technologies.

Customer Support

At Eware, we strive to provide the highest level of customer service and support. We position ourselves as our clients' trusted solutions provider source by providing world-class and memorable experience each time they need assistance.
